

## CHICK MAGNET

new

Eating organic used to be an ethical choice; now it's as much about good taste as it is about being good.

A new Queen West butcher shop satisfies on all fronts. Certified organic chickens perch next to grass-fed steaks. Breakfast sausages, sweetened with maple syrup and cranberries, could almost sub for dessert. **The Healthy Butcher**, 565 Queen St. W., 416-674-2642.
